Dear Harrod,

International Regulation of Primary Products.

You will recollect our discussion on Friday in the External Committee as to whether the majority of the Committee should submit a further note in reply to that of Sir Donald Fergusson. Thinking over the matter after the meeting I realised that the submission of the documents to the Reconstruction Problems Committee would give me an opportunity for making clear the attitude of the Official Committee without involving a formal memorandum and I had the impression that this course would be generally welcomed by the Committee.

I have drafted the enclosed covering note for the purpose and subject to any comments from members propose to proceed accordingly.

Yours sincerely,

R. F. Harrod Esq.,  
Christ Church,  
Oxford.
