Dear Harold,

I think it would meet a
desire to have some progress landing
systems explained; my sermon has
been working on the Federal Reserve
system, but a lot of points remained
dormant. All the Report & a
few early numbers of the Bulletin
are in the book library, so
some of the men sitting to the right
helped - have looked at the work,

I written some letters, but they
didn't get a copy of it. Probably
it will stand 4-6 lectures.

Next to last, I think we
shall want some lecture on the
Catholic trial in relation to the
current exchange. It is very difficult
to find out what happens, but as
far as I know it is very
interesting.
